We know some parts of this website are not fully accessible:

- most older PDF documents are not fully accessible to screen reader software
- you cannot skip to the main content when using a screen reader

Any documents produced by third parties but attached to our website may not be fully accessible. The website supports text to speech and the option to change font size, colour and background colour.

All of the documents produced by Eckington Parish Council after 23 September 2020 will have headers, and in most cases a table of contents, making the navigation of documents easy to use and to find a specific item within our PDF documents.

We are not in a position to commit to a retrospective check of all Eckington Parish Council document issued before 23 September 2018 however we will endeavour to bring the most used and latest documents to an accessible standard.

7 Technical information about this website's accessibility

Eckington Parish Council is committed to making its website accessible, in accordance with the Public Sector Bodies (Website and Mobile Applications) (NO. 2) Accessibility Regulations 2018

This website is partially compliant with the Web Content Accessibility Guidelines version 2.1 <https://www.w3.org/TR/WCAG21/> AA standard, due to the non-compliance listed below.

8 Non accessible content

The content listed below is non-accessible for the following reasons.

Some pages may contain attachments which are not currently compliant, for example older PDF files such as Meeting Minutes and Agendas published before 23 September 2018. Content produced by third parties or using third party software. The AGAR is not in accessible format as it is produced by Eckington Parish Council but uses a template provided by a third party and does not lend itself to being accessible.

The content listed below is non-accessible for the following reasons.

8.1 Non-compliance with the accessibility regulations

- Site is navigable via use of keyboard only, but will need to be used in conjunction with the appropriate accessibility software. All the highlighted tabs can be made prominent again by using the accessibility software.
- Some PDF documents still do not include section headings. This does not meet criterion 4.1.2 (name, role, value). We are putting great effort into ensuring all our documents comply with this as soon as possible.

Changes to this statement will be made regularly as we strive to ensure as much accessibility as possible.

9 Disproportionate burden

9.1 Navigation and accessing information

There is no way to skip the repeated content in the page header (for example, a 'skip to main content' option) however this option is being looked into by the web developer.

9.2 Interactive tools

Some parts of this site link to, or use content provided by other websites and these are not always accessible. Examples include:

- Social share buttons
- YouTube videos
- Google Maps

We have assessed the cost of fixing the issues with navigation and accessing information, and with interactive tools. We believe that doing so now would be a disproportionate burden within the meaning of the accessibility regulations. We will make another assessment when we review this statement at the annual council meeting.

10 Content that's not within the scope of the accessibility regulations

10.1 PDFs and other documents

Some of the older PDF documents, published before September 2018 are not currently in an accessible format and we have no plans to update these as a matter of course but if it is seen that some are requested on a regular basis then every effort will be made to make them accessible, this will be dependent on cost and time constraints

The accessibility regulations do not require us to fix PDFs or other documents published before 23 September 2018 if they are not essential to providing our services.

Any new PDFs we publish will meet accessibility standards.

We are always looking to improve the accessibility of this website. If you find any problems not listed on this page or think we are not meeting accessibility requirements, contact:-
