

## 8f – Local Plan information received from NEDDC

The main thing they would appreciate at the moment please, is helping to spread the word about the forthcoming opportunities for engagement:

- ‘Join the conversation’ early informal engagement using facilitated drop in sessions and an on line survey and recruiting people to sign up to focus groups. The survey will run between 2<sup>nd</sup> – 19<sup>th</sup> May, we are just finalising a flyer for this which I will forward to you; and
- Issues & Options formal consultation scheduled for June/July this year.

They are also encouraging people to sign up to the District Council’s email bulletin service - [North East Derbyshire District Council](#) This will be the main way that they will share information on Local Plan progress and opportunities for engagement. People can still sign up to be registered as contacts on our Local Plan database, but they will only write directly to people on this database at the formal stages required by the regulations.
