

9 – Neighbourhood Plan

Advice from NEDDC:

In terms of the Neighbourhood Planning process, the first step will be to secure designation of an appropriate Neighbourhood Area – this process is administered by the Council's Governance Team. For advice on the scope and content of the Neighbourhood Plan the group is encouraged to contact my colleague George Newton in the Planning Policy & Environment. George will also be happy to undertake an early meeting with the Group at an appropriate time and will process any requests for information to assist in the neighbourhood plan-making process.
